

# OP Series

Outdoor theater sound

## OP Series

A U D I O

The OP.2 Outdoor speaker delivers great sound, even in wide-open spaces. A 2-way weather-proof speaker with a high power polypropylene woofer and 1" silk soft dome tweeter makes it perfect for open-space listening.

Using our new Swivot Technology mounting system, the OP.2 gives you the flexibility to aim the OP precisely where you want the sound to go. The wedge-shaped cabinet can be mounted either horizontally or vertically, making it easy for you to tuck these speakers up and out of the way.

The OP.2 comes in a ABS cabinet built to handle outdoor conditions. The grill is aluminum with brass fittings to prevent rusting and corrosion. Sound as big and beautiful as the great outdoors.

OP-6.2
